Southeast Brass Quintet

The **Southeast Brass Quintet** was formed in the early 1990's with a dedication to the performance of brass chamber music from all eras. Past performances include many community service events in and around Cape Girardeau as well as with the Paducah Symphony.

The quintet is comprised of three full-time SEMO brass faculty members plus two adjunct faculty. By combining the talent and experiences of the five individual performers, a unique blend of brass chamber music is created.
