*Adobe Voice is a powerful digital storytelling tool for presenting ideas and engaging your audience with your unique thoughts and ideas.*

ADOBE VOICE for the ipad

FINDING THE APP

The Adobe Voice app is freely available in the App Store.

After it's been downloaded it will located on one of your iPad home screens.

GETTING STARTED

Once you've opened the app, you can **Explore** other Voice stories, see your **Projects,** and look at what you've **Shared.**
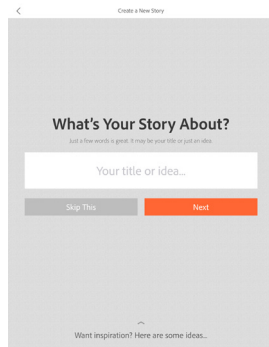

You can also tap **Create a New Story** to get started.
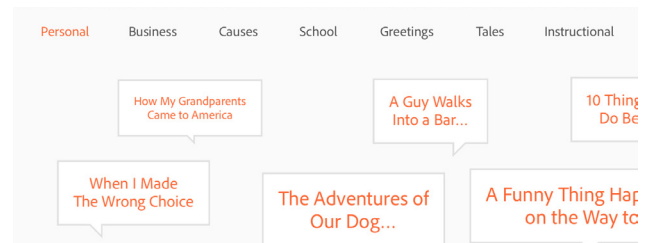

CREATING A NEW STORY

Add a title on this screen or wait until later.

This is your story—tell it your way.
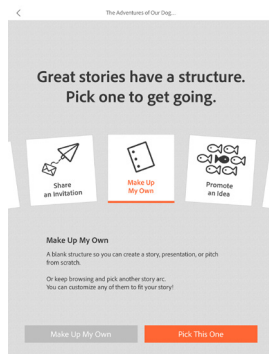

FINDING INSPIRATION

If you're lacking a story idea, swipe from the bottom of the screen to find some inspiration.
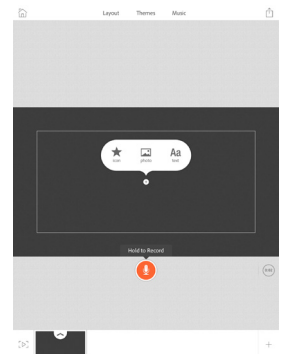

STORY STRUCTURE

Preloaded with a series of ideas and story starters, you can quickly get started sharing your ideas.

You can also tap **Make Up My Own** to follow your own format.
CREATION SCREEN

This is where the magic happens. You have a box with three symbols—one for importing icons, one for importing photos, and one for adding type.

RECORDING AUDIO

To start recording your audio, tap the **Hold to Record** bottom. Adobe Voice works behind the scenes to eliminate ambient noises.
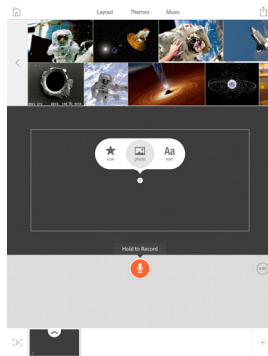

You'll need to record audio for each slide in your story.

ADDING ICONS

Tap the **Icon** symbol to begin your Creative Commons search for different icons.

Tap the one you'd like to add to your slide.

ADDING PHOTOS

Tap the **Photo** symbol to find photos. You can search Creative Commons for photos, or import them from your own sources (iPad, Facebook, etc.).
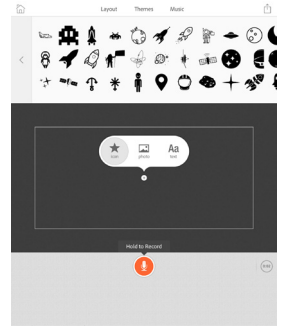

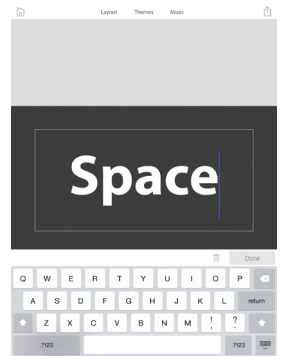

Tap the one you'd like to add to your slide.

ADDING TEXT

Tap the **Text** symbol to add text to your slide.

Text will be automatically resized to fit your slide.

LAYOUT

You can choose the arrangement and number of things per slide with the **Layout** panel.

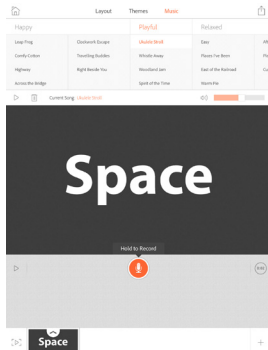

THEMES

The **Themes** panel can give your story a different feel. You can always reset the theme to better fit your story.

MUSIC

Experiment with the **Music** panel to find music that best matches the feel of your presentation.

All music included in Adobe Voice is Creative Commons licensed.

UPLOAD & SHARE

The icon in the top right corner of the **Creation Screen** allows you to share your story with the world.
